This is the most recent NEI data. National Emissions Inventory, its submitted by Facilities, then quality checked by the States and EPA, so it's always a few years behind. I asked for it by State, County and Facility so it could be sorted in many ways. My request is limited to point sources only.

Hi Kris,

Here are the VOC, NOx, and Total HAPs emissions you had asked for. If you were looking for a different format or more information, let me know. Good luck with coming back to work ☺
